### Professional Experience

---

#### Arroyo Development Firm

Frontend Web Developer

April 2021 - Present

- Collaborate with cross-functional teams including designers and backend developers to create visually appealing and user-friendly web applications.
- Develop and maintain responsive websites using HTML, CSS, and JavaScript, ensuring compatibility across various browsers and devices.
- Utilize modern frontend frameworks, such as React.js, Angular, or Vue.js, to streamline development processes and improve code maintainability.

#### Ullrich Insurance

Software Engineer Intern

July 2020 - September 2020

- Participated in team meetings and contributed ideas for improving frontend development processes and workflows.
- Improved the process of sending and receiving claims by creating software that is simple and friendly to use
- Stay up-to-date with the latest industry trends, best practices, and emerging technologies in frontend development, and actively share knowledge with the team.

#### We Care Insurance

Project Manager

April 2020 - July 2020

- Implemented Scrum and Agile Methodologies to communicate project plans with teammates
- Automated user processes by creating efficient and well designed applications
- Assisted in the optimization of website performance through code refactoring and asset optimization techniques.

### Career Objective

---

As a dedicated and skilled Frontend Developer, my objective is to leverage my technical expertise and passion for user-centric design to contribute to the creation of visually stunning and highly functional web applications. My goal is to continuously expand my skill set, stay up-to-date with the latest industry trends and technologies, and play a pivotal role in crafting intuitive and engaging interfaces that exceed user expectations. Through my commitment to quality, teamwork, and continuous learning, I aim to make a meaningful impact on the digital landscape and help shape the future of frontend development.
